# City series by KLEEMANN

The next generation of traction MRL lifts

With the City series, you can explore a whole range of advantages, including space savings, rapid installation, reduced total cost of ownership, energy efficiency, remote monitoring, as well as a smooth and safe ride.

City 100

City 300

For low-rise & low traffic residential buildings

For mid-rise & mid traffic residential & commercial buildings

## City 100

Durability and functionality with this cost-effective traction MRL solution, designed to meet your needs, perfect for residential buildings with low traffic.

## Technical specifications

| Model               | City 100                   |
|---------------------|----------------------------|
| Rated load (Kg)     | 320- 400- 450- 630-1000    |
| Max travel (m)      | 21                         |
| Max number of stops | 8                          |
| Max speed (m/s)     | 1,0                        |
| Max persons         | 13                         |
| Max group size      | 8                          |
| Min pit depth (mm)  | 1000                       |
| Min headroom (mm)   | 3300                       |
| Complies with       | Lifts directive 2014/33/EU |

Recommended uses

Residential buildings Low traffic & low- rise buildings

## Description & features

City 100 is designed to provide high functionality at the lowest cost without compromising on style, comfort, longevity, or safety. Its pre-engineered design is developed focusing on key performance features, while ensuring the building benefits from both affordability and reliability.

#### **Value-driven Engineering**

City 100 represents long-term value through its pre-engineered design that combines durability with efficiency. Precisely constructed to endure, it lowers total ownership costs by focusing on key performance features, ensuring your property benefits from both affordability and reliability.

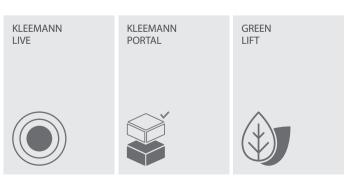

#### **Eco-friendly design**

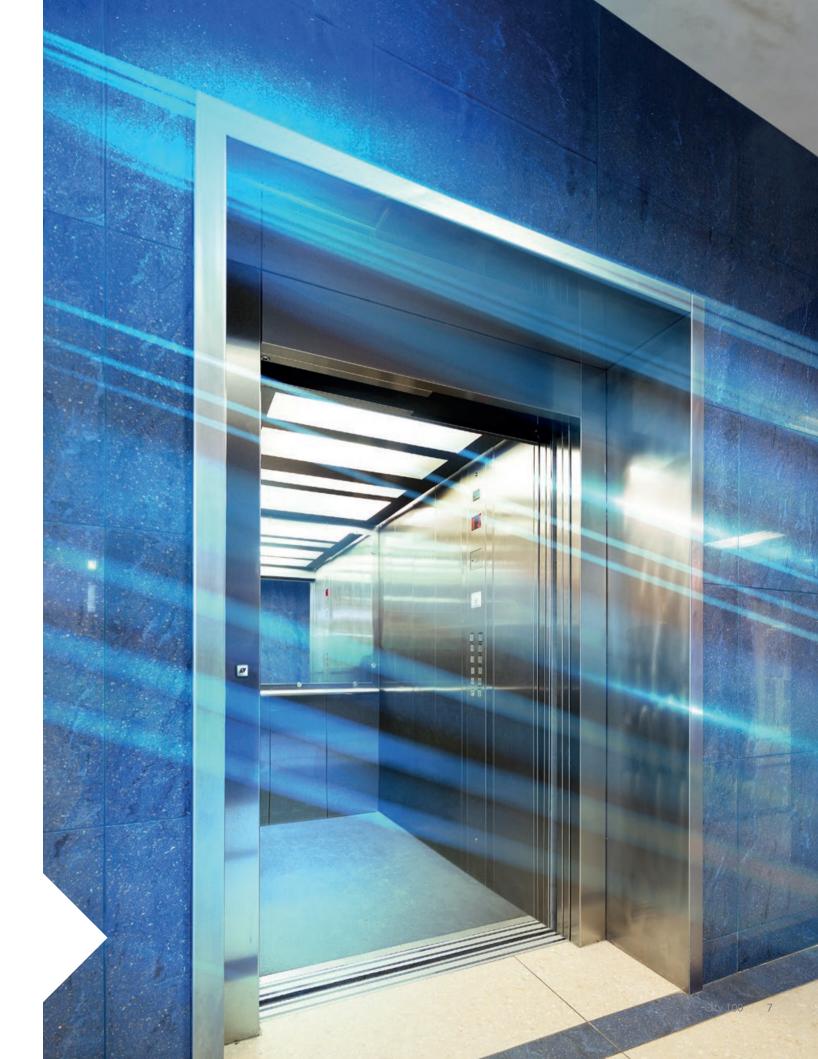

City 100 with its lightweight structure and sustainable packaging, is a perfect choice for eco-friendly building practices. It uses no welding or painting and also requires less energy to operate than a heavier MRL elevator. Consequently, it enhances the building's green credentials, lowers its carbon footprint, and boosts the whole value of the construction.

#### **Digital connectivity**

City 100 merges the power of cutting-edge digital tools like KLEEMANN Live and Lift Control mobile apps. Take advantage of digital convenience by ordering your City 100 lift exclusively through our online KLEEMANN Portal.

## Extra features & upgrades

# Advantages City 100

Residential elevators City 100 Advantages

## Green & sustainable lifecycle integration

Our primary goal is to create solutions that are sustainable and help reduce the environmental footprint of buildings. Our lifts feature multiple green elements and are designed to assist in qualifying for LEED and BREEAM certifications. City 100 lifts consume low energy, contributing to the overall building's energy performance.

## Green attributes

### Quality & sustainability certificates

City 100 sets the standard for energy efficiency and environmental management, achieving top marks with ISO 25745-2 and VDI 4707-1 certifications. This recognition underscores our commitment to superior energy management and environmental conservation.

## Reduced CO<sub>2</sub> emissions

Thanks to innovations from our engineering team and lighter packaging, the standard 8-person, 5-stop City 100 is significantly lighter than previous models. This reduction in weight translates to 10% fuel savings during transit from our factories to your site and occupies 11% less space when packaged during shipping.

#### **Energy efficiency**

City 100 incorporates energyefficient features like standby mode and LED lighting, offering up to 40% energy savings compared to traditional residential lifts.

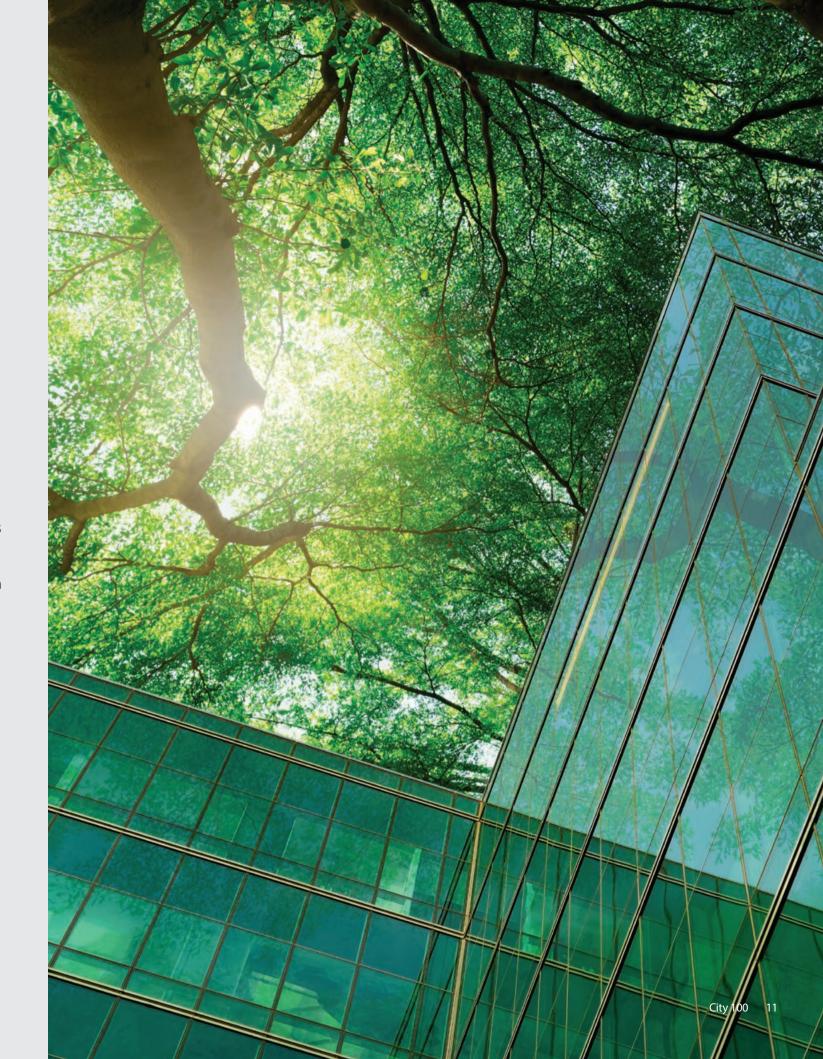

#### Maintenance and longevity

Equipped with KLEEMANN Live, City 100 reduces significantly the frequency of unscheduled maintenance visits, prolonging the lift's service life.

#### Sustainable materials & design

Constructed with eco-friendly materials and designed without the need for welding or painting, City 100 avoids

the use of hazardous substances, reinforcing our commitment to environmental protection.

Residential elevators City 100 **Advantages** 

## **Digital** connectivity

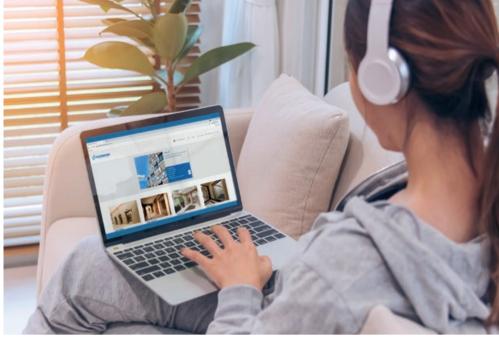

Integrating advanced digital tools into the City 100 operation, such as KLEEMANN Live and Lift Control mobile apps, connects the lift experience to its optimum potential. Moreover, City 100 is available online via KLEEMANN Portal, offering an exclusive, easy and efficient purchase.

KLEEMANN Live is an IoT system that collects, transmits, analyzes data

and provides insights for your lifts in real time. It keeps you linked

#### **Features** & Highlights

portal.kleemannlifts.com

Responsive web design

#### KLEEMANN Portal has been designed and developed with our customers' needs in mind. It is a platform that enables all users to quickly and effortlessly create or receive detailed designs, get quotes, and order online their lift, tailored to their project. Simply choose the cabin dimensions you want to generate accurate and realistic 3D plans and views.

KLEEMANN Portal offers a direct link between the customers and the Production Department for an engineer-to-order (ETO) process.

Access KLEEMANN Portal from your desktop, tablet, or mobile device to preview cabin designs, options and quotes. A unique advantage of KLEEMANN Portal is the live offers you can get for our most popular lift solutions prior to the online ordering process. You can also navigate your offers' history to retrieve and download the details of previous offers and quotes, request the creation of new drawings and plans and check your order status.

#### **Features**

- Detailed designs and quotes
- Integrated cabin design options. Real-time changes
- · More than one shaft dimension option for the given cabin dimensions
- Realistic 3D plans and views. Real-time changes
- Auto correction
- Installation plans generated by the KLEEMANN Portal

#### **Highlights**

- Offer available in 5 minutes
- Planning data available in 10 minutes
- Online order
- Ease of use and flexibility

## Design options City 100

Residential elevators City 100 Design options

## Purity S

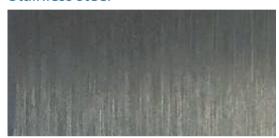

City 100 is provided with the Purity S cabin, which combines durability and simplicity. It enables easy installation from within the cabin, a design free from visible screws, and a new packaging that significantly reduces installation time.

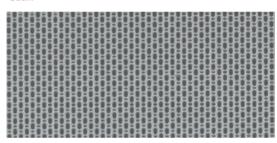

## Purity C

City 100 is also provided with Purity C, a cabin that embraces the freshness of architectural trends. Purity C delivers a modern edge that seamlessly aligns with the latest design aesthetics but also ensures a hassle-free installation from within the cabin.
