KLEEMANN
Live
The IoT
System

KLEEMANN
Your 1st Choice in Lifts

KLEEMANN Live

KLEEMANN Live is an IoT system that collects, transmits, analyzes data and provides insights for your lifts in real time. It keeps you linked 24/7 so you can access your lifts' status remotely any time, offering peace of mind to your customers.

Easy remote check

*Available for desktop or smart device

- See the live status of all connected lifts
- Check your messages

- Inspect rides & statistics. Check parameters, send commands and calls to the elevator and get insights
- Edit parameters if needed

Benefits

SAVE TIME & MONEY

Reduce the duration of visits to the site

Reduce the number of scheduled maintenance visits saving up to **30%** off expenses

GROW YOUR BUSINESS

Expand and support more contracts with the same number of technicians

Reduce the number of call outs by **20%**

POWER UP YOUR PERFORMANCE

Extend equipment lifetime

Reduce down-time from unexpected problems up to **10%**

You just need

- The plug & play Hardware
  (gateway–autodialer)
- **SIM card** with data for cloud
 connection and minutes for
  autodialer voice calls

Log in live.kleemannlifts.com using
KLEEMANN credentials & experience
the KLEEMANN Live.

PED

*Passenger
Emergency
Detection

A new smart function that detects emergencies.
In critical health situations, when a passenger is unable to use the elevator emergency button, the KLEEMANN PED* System will provide the necessary assistance.

• Activate the sound alarm

• Move the cabin to ground floor and open the doors

• Turn on the cabin fan operation

• Send help messages through KLEEMANN Live - the IoT system

• Initiate immediate help dispatch by alerting the 24/7 help center in elevators equipped with the Safety Line

ISE

*Info on Safe
Environment

Health is of utmost importance to KLEEMANN.
The KLEEMANN ISE* system informs passengers about the air quality inside the cabin, ensuring safe boarding. This information is also accessible on smartphones.

• Time elapsed since the last ride with passengers

• Number of passengers in the last ride

• Necessary time for complete recirculation of air in the cabin 100%

Patent pending
