

KLEEMANN
LIVE

Everything rises to the next level

Real-time insights. Preventive actions.
Total peace of mind.

KLEEMANN
Your 1st Choice in Lifts

A new era in elevator management

In the world of vertical mobility, every minute of uninterrupted operation matters. Downtime costs more than time, it impacts reputation, trust, and business growth.

KLEEMANN Live empowers you to stay in control, foresee problems before they arise, and deliver a superior experience to every user.

Welcome to KLEEMANN Live

KLEEMANN Live is a comprehensive platform for optimized and remote elevator management. Providing complete, instant, and continuously updated insights, it introduces a new level of usability, reliability, and operational efficiency.

Solutions that power your business

KLEEMANN Live is your strategic partner for growth, offering everything you need in one platform to expand your business, streamline your operations, and deliver even greater value to your customers.

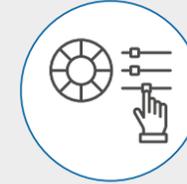

Key Features

Real-time monitoring & instant alerts

Preventive maintenance to reduce downtime

Remote parameter viewing & editing

Ride quality and operational insights

Complete event, error, and performance logs

Built-in management tools to optimize tasks

Unlock the benefits that matter

SIMPLIFIED MANAGEMENT & MAINTENANCE

Take full control of your lift operations 24/7 from anywhere, minimizing the need for on-site visits.

SAVE TIME & MONEY

Reduce downtime and operating costs with preventive maintenance and automation. Boost productivity by focusing efforts where they matter most.

RELIABILITY & SAFETY

Stay ahead of issues with instant alerts and remote access, ensuring uninterrupted elevator operations.

TECHNOLOGY THAT EVOLVES WITH YOU

Boost your business performance with a platform that adapts to your evolving needs, enhancing functionality and fostering innovation.

PERSONALISED SUPPORT

Empower your teams with personalized training and support, from installation to daily use.

ENHANCED USER EXPERIENCE

Enhance user experience through continuous monitoring, ensuring smooth and safe operations with peace of mind.

A PLATFORM THAT ADAPTS TO YOU

Shape the platform to your needs, customizing features and functionalities to fit your business perfectly.

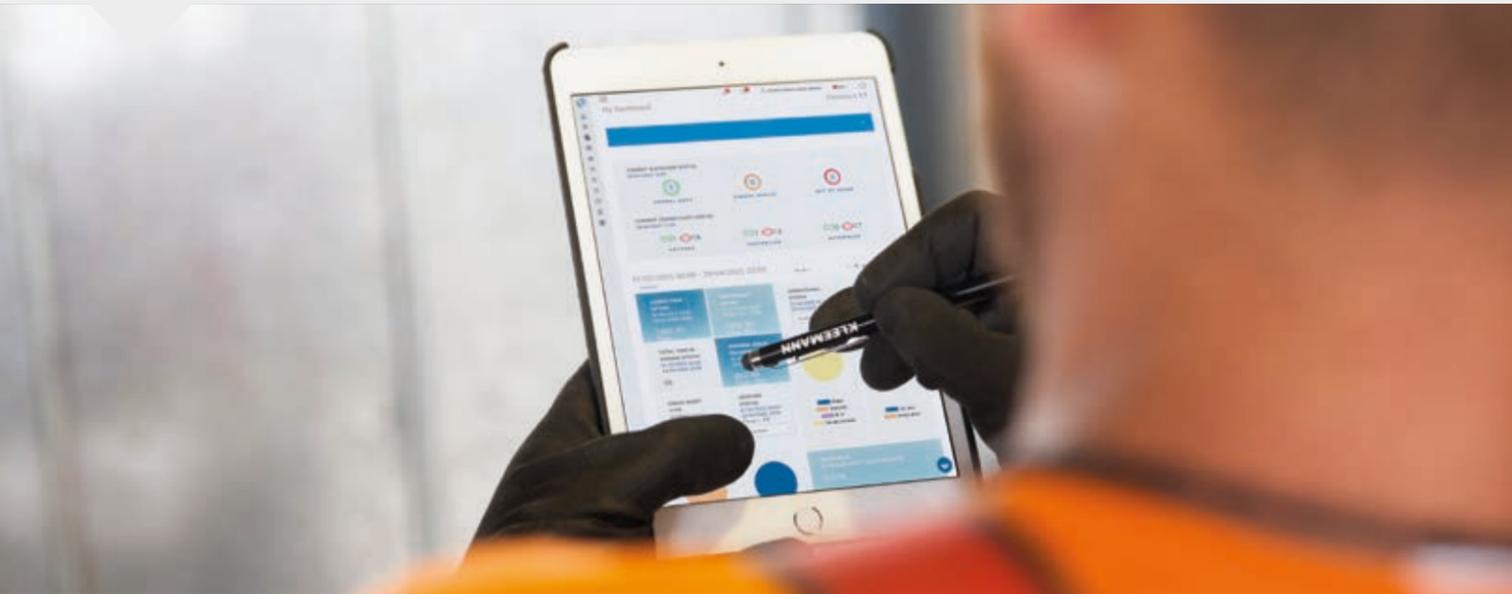

KLEEMANN'S EXPERTISE

Operate with clarity and trust, powered by KLEEMANN's decades of proven expertise and a solid reputation in the elevator industry.

Designed for every role

KLEEMANN Live empowers every role involved in elevator management, from technical experts to end users

- Technical companies & maintenance crews
- Facility & property managers
- Engineers & project managers
- Property owners & tenants

Built for today, ready for tomorrow

KLEEMANN Live empowers your business to meet today's challenges and to seize tomorrow's opportunities

Key Components

- ↘ Integrated with Genius20 control panel
- ↘ Plug & connect hardware (IoT Gateway)
- ↘ WiFi/Ethernet & GSM connectivity
- ↘ SIM card with data and voice plan
- ↘ Flexible subscription plans (web and smart device access)

Add-on solutions

for elevated performance

Genius SafetyLine auto-dialer

An EN81-28 and EN81-70 compliant module that automatically notifies technicians or the call center

in case of a problem, for immediate intervention, while also allowing passengers to communicate in the unlikely event of an emergency. Compatible with P100 & SLCC protocols, for automated tests.

Additional equipment:

- Extended antenna with cable
- GSM signal booster

Elevate your connectivity

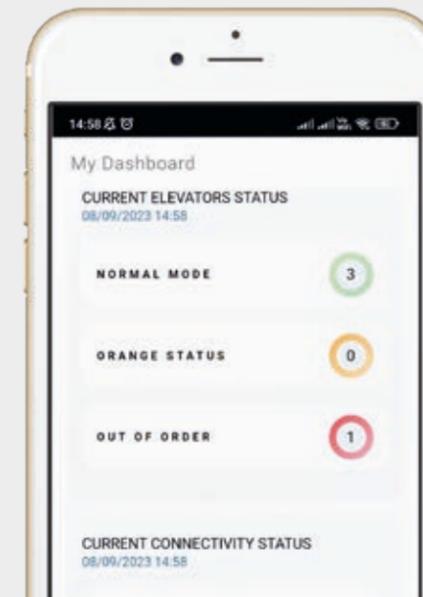

with KLEEMANN SIM cards

Seamless integration with your elevator

The KLEEMANN Live SIM Card is an industrial-grade EUICC SE-SE 3FF module designed to ensure that elevators stay connected with reliability, security, and flexibility.

- Reliable & secure connectivity
- Seamless EU roaming with smart auto-network switching
- Cost efficiency & easy management
- Predictable costs, live usage tracking, automatic subscription renewal
- Data & voice capabilities

Mobile & Tablet Apps

Total control. Anywhere, anytime

Lift Control:

Offer your customers (facility managers, building owners, tenants, etc.) access to Lift Control, an intuitive smart device application that promotes transparency and demonstrates clear evidence of service effectiveness.

Lift Control Pro:

Elevate Maintenance Efficiency: Download the app, connect, and manage elevators anywhere, anytime with Lift Control Pro, a user-friendly smart device application that allows you to access and manage most KLEEMANN Live functionalities.

KLEEMANN Live Functionalities

ALL Features, Benefits & availability

Feature	How it works	Description	Benefit	KLEEMANN Live web platform	Availability		Subscription Plans		
					Lift Control PRO	Lift Control	Basic	Advanced	PRO
Current & Connectivity Elevator Status	Monitor elevator status & connectivity through a widget or map view	Group elevators per customer or other criteria	Real-time monitoring, faster issue identification, better portfolio overview	●	●	●	●	●	●
Real Time (Live) Elevator Status	View and remotely control elevators with functionalities similar to a handheld terminal	Remote control capabilities for quick interventions: elevator calls, door commands, block landing calls	Minimize visit durations and allow service to more customers in less time	●	●			●	●
Customizable Dashboard	Personalize your dashboard to prioritize valuable information	Enhanced user experience, focused insights and quick access to critical data	Reliability and performance combined with a technology that evolves with you	●				●	●
View, Edit & Compare Genius20 Controller Parameters *	Access and adjust most used Genius20 controller parameters, review & compare timestamped history, simulating physical presence	Efficient troubleshooting and configuration customization without jeopardizing the elevator's safety or the passenger's security. Parameter comparison enables further optimization.	Reduce on-site visits and serve, support, and provide service to more customers in less time	●	●			●	●
View & Edit Genius SafetyLine Autodialer Parameters (available with Genius SafetyLine) *	Access and adjust Genius SafetyLine autodialer most common parameters	Efficient troubleshooting, configuration customization simulating physical presence	Reduce on-site visits, and service more customers in less time	●	●			●	●
Ride Data & Statistic Insights	Analyze travel data, floor accuracy (levelling), doors performance and other key metrics	Optimize performance, identify operational patterns and improve overall efficiency	Ensure reliability & prevent future errors or downtimes. Strengthen customer trust.	●	●	●		●	●
Event & Error Notifications	Receive real-time notifications for elevator events and errors. Access historical logs for detailed review	Reduce downtime with quick issue detection through email or platform notifications	Improve First-Time Fix Rate & optimize Technician Time	●	●			●	●
Preventive Maintenance Notifications	Get preventive maintenance alerts with suggestive actions	Receive alerts via email, mobile app push notifications, or SMS	Minimize breakdowns and maintenance visit costs. Extend elevator lifespan.	●	●				●
SMS Alerts	Receive SMS alerts on your mobile device for critical events	Configure which alerts need immediate attention and respond accordingly	Immediate awareness of emergencies and enhanced safety	●	●			●	●
Mobile Apps & Notifications	Monitor elevators via the Lift Control Pro app (Android & iOS) with instant push notifications	Use it to monitor your portfolio remotely and utilize most of the features available on the web platform	Instant updates and fast responses to issues		●			●	●
